

**INTEROFFICE MEMORANDUM**

SUBJECT: Local Mode data acquisition requests for February 2000

FILENAME: 0002\_requests.fm

Here is a list of MISR activities, scheduled by the IOT team. Local Mode acquisition times are for Df acquisition. Da ends acquisition 8 minutes later. Dates proceeded with an \* are extra critical: field campaign in progress.

Data product required	Date	DOY	Site_name	ID	Lat.	Long	Time, UT	Orbit	Path
None	Feb-27	058	MAYON_VOLC				02:37:24	1030	114
		058	SCIENCE data lost from 11:50 - 12:40						
None		058	Trout_Lake	191	46.03	-89.67	17:14:29	1039	25
		058	Integration time/band change on Aa				18:50:00		
L2 AS		058	JPL	079			18:56:41	1040	41
L1A	Feb-28	059	Salar	140			14:58:22	1052	233
L2 AS	Feb-29	060	Mongu	110			09:04:39	1063	176
L1A		060	Algeria_3	002			10:31:01	1064	192

The column labelled "data product required" reflects the highest level of data processing that our science teams members will request,

for either Global Mode or Local Mode data products.

In the case of Global Mode data products, the processing to Level 2 data products may not be done for data sets acquired prior to May 1, 2000. This table thus gives a list of orbits where we would like early mission data to be processed to Level 2.

We recognize that Local Mode data are currently only produced to L1B1 at the DAAC. Thus, the request for L2 Local Mode data products cannot be fulfilled at this time. The purpose of this column, with respect to L2-LM products, is to track of which data sets should be processed to L2, should this capability come to exist some time in the future.

As this file resides on the developers page, it is for internal JPL use only. Therefore, it is a "wishlist", and does not commit us to producing these products to outside investigators.
